

Baseball Line Graph

Name: _____

Pick any Major League Baseball team that you would like. Follow this team for up to 10 games. Record how many runs your team scored in the correct column followed by the number of runs scored against that designated team. On a separate sheet of graph paper plot the runs scored in red and the runs against in blue. At the end of the ten games please answer the questions at the end of this activity.

(Team Name)

Game Number	Runs Scored	Runs Against
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

Baseball Line Graph

Questions:

1. During which game did your team score the most runs?
2. During which game did your team have the most runs score against them.
3. How many runs did your team score during these ten games?
4. How many runs were scored against your team during these ten games.
5. What is the difference between the total runs scored for your team and the total runs against your team?
6. Based on these 10 games, how do you think your team will do over the next ten? Why?
7. Do you see a difference from the first game to the last? Explain.
8. Find a partner somewhere in the classroom. Compare your team's graph to your partner's. Which team did better during the past 10 games. Which team scored the most runs? Least number of runs? Which team do you see doing better throughout the rest of the season? Why? Explain your answers
