Poster Instructions

This file contains two versions of the same poster--one small and one large. Print only the page(s) desired.

The first version is one 8"x10"page. Simply print on standard paper.

The second version is four 8"x10"pages. Print the four pages and fold the edges. Match the four components to make a large poster, then glue or tape together along the edges. Laminate the poster for longer use.
