

## Play Microphone

### Materials needed:

- One toilet paper tube,
- aluminum foil,
- tape,
- streamers
- made from crepe paper or ribbon or strips of construction paper,
- markers or crayons

### Directions:

1. Decorate toilet paper tube, wad up a piece of aluminum foil and stick in one end of toilet paper tube.
2. Make sure the aluminum foil wad is big enough so that it sticks out the end of the tube. This is your microphone and the toilet paper tube is your handle.
3. Tape or glue aluminum foil to the rim of the tube.
4. Make streamers and tape or glue to the other end of the toilet paper tube.

Start singing!
