

A Song for Fire Awareness

Tune: "The Farmer in the Dell"

When a fire's there-
I can be prepared-
By knowing rules to help stay calm-
My safety plan I'll share!

Before I leave too soon-
I should test the door of the room-
Feeling it with the back of my hand-
To see if I should zoom!

When the door is hot-
I definitely will not-
I need to find a different route-
That is what is taught!

If the room is filled with smoke-
It can make my body choke-
Get down on the floor and crawl
along-
It really is no joke!

These rules are just a few-
To help me keep my cool-
Knowing how to get out safe-
Is what I'll plan to do!
