

Name _____ Date _____

European Union: Countries and its Capital Cities

First proposed in the 1950s, the European Union was originally an economic integration among six countries. Several additions to the EU have been made throughout the years, and the integration has expanded from agreement on a few economic sectors to a unified approach to agricultural policies, consumer rights, and trade. As of 2007, the European Union has 27 member countries.

Check your knowledge of the countries and their capital cities. HINT: The countries are listed in alphabetical order.

Complete the table:

Country	Capital City
