

It Is the Earth!

We live on the Earth. The Earth is very big. The Earth is a sphere, the same shape as a ball. The Earth spins every day. The Earth has land, where people and some animals live. It has oceans, where fish and whales live.

A globe is a model of the Earth. It looks like the Earth. A globe is also a sphere. The Earth and a globe are the same shape. We use a globe to learn about the Earth. A globe has pictures of land and water on it, so we can understand where those things are on the Earth. The Earth spins around and travels around the sun. We can make the globe spin, too. It is fun to learn about the Earth with a globe.

The Earth is _____.

1. a globe
2. where we live
3. a ball
4. a model

A globe helps us _____.

1. spin around
2. read
3. learn about the Earth
4. learn about the sun

Match the word with the picture

globe

Earth
