

## EGYPT

Egypt lies in the northwestern corner of Africa, and partly in Asia. Its official name is the Arab Republic of Egypt. It is bordered by Libya to the west, the Sudan to the south, the Mediterranean Sea to the north, and the Red Sea to the west. Egypt is the gate between Europe and Asia, and represents the entrance to inner Africa.

The population in 2003 was estimated to be sixty million people, most of whom live in the Nile Valley and the Nile delta. Two principal cities, Cairo and Alexandria, are located there. The country is about one million square kilometers (about 386,000 square miles) in size. Islam is the official religion of Egypt. Arabic is the major language spoken in Egypt, but you can usually be understood in English or French.

The country is rich in tradition and culture. A great number of the world's cultural monuments are in Egypt. These monuments date back to the early history of mankind. Foreigners coming to the Nile Valley are surprised by the scenery they can observe.

Despite its natural and historical beauty, Egypt has limited natural resources, and must import many raw materials used in manufacturing. The Egyptian economy is trying to catch up with other developed countries.
