

ART CLASS

We have art class every Tuesday. We learn about different kinds of art, from painting to sculpture. We learn about important things like light, colors, and angles. We learn about different artists. Best of all, we learn about our own artistic taste.

Our teacher shows us lots of works of art so that we understand them all. She has taught us how a painting can look like a photograph, and how a sculpture can look like it's alive. We looked at cave paintings and modern art to understand how art has changed over time. We have studied artists who were famous when they were alive, and artists who weren't. We always talk about how the art looks, and we also talk about how we feel about it.

I love learning about all these things, but I like art class best of all when we make the art ourselves. I know that sometimes in art class we can get pretty messy, but I don't care, because we are making things that are beautiful. Or... at least we are trying.
