

## Directions: Word Search Game

Use the letters in the square game board to create words.

Game 1 (4x4)

A	T	C	H
B	L	A	I
Z	E	N	P
R	O	O	E

zone \_\_\_\_\_  
latch \_\_\_\_\_

### Rules:

1. To make a word you must use letter squares that touch to the right, left, above, below or diagonally from each other. Look at the game board to see how the words **LATCH** and **ZONE** were created.
2. As long as the letters touch on the game board, the letters may be arranged in any order within a word, not just the order they appear on the game board.
3. When you create a word, you may only use a letter square once in each word.
4. When you create a new word, you can use letters you used in previous words. For example: In the game above the "L" is used to make the word **LATCH**. The next word you make using the same "L" could be **LANE**.
5. Write each word you create on the lines provided below the puzzle.
6. Try to make as many words as you can.

Game 1 (4x4)

A	T	C	H
B	L	A	I
Z	E	N	P
R	O	O	E
