

Sewing Kit

Materials needed:

- Small jewelry box,
- Pin cushion (optional),
- Different colors of thread,
- Needles,
- Straight pins,
- Glue.

Directions: This is similar to the photo box idea.

1. Make sure your box is deep enough to put spools of thread in it and still be able to put the top on it.
2. Decorate the outside of the box both the lid and the bottom with lace, rickrack, scraps of material, or pictures.
3. You can glue a pin cushion to the
4. top of the box.
5. Put spools of thread in the box, straight pins, needles, etc.

This is another great gift idea for children to make for presents.

Variation: Make a jewelry box and decorate the outside of the box with beads. Line the inside of the box with felt.
