State Report Booklets

These pages are meant to help students create state report booklets that are thorough and interesting. Each page features a category of state symbol that is common to many states. However, not all states have all these symbols, and some states have symbols that are not included within the pages of this booklet. Encourage students to make their own pages for the categories not shown here and to simply eliminate the pages that do not apply to their state (one idea is to make copies and have students request the pages they need for their state reports).

Each page has:
- a line at the top of the page for writing the state name
- space for drawing or pasting a picture of the symbol or (in the case of nicknames, etc.) an appropriate illustration.
- a prompt to write the name of the symbol
- a short space for students to personalize the report with their own observations. Observations can be personal (“I think the beaver in the flag looks more like a squirrel,”) or factual (“This motto was chosen in 1852,”) according to teacher expectation and student ability.

Blank pages are included at the end of the booklet. Students can use these to include further pictures or text.
