

100 DAYS

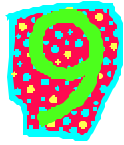

Of School

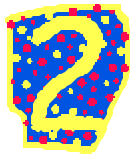

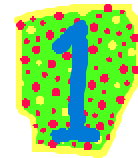

I've never seen a hundred,
It's pretty big, I guess.
I keep asking everyone.
And they just say, "Oh yes"...

"A hundred is an awful lot" ...
"A great big, huge amount" ...
But I am really worried,
'Cause I'm just learning how to count.

I'm learning all my numbers,
And I'm trying by myself,
To understand a hundred.
But I might need some help.

I can't believe we've been in school
For a hundred days!
A hundred is a lot, I know,
So I am just amazed!

I like to come to school each day
And I love my school a lot.
Mom says I go to school to learn
But it's fun, so I forgot!

So we counted to one hundred
And now I think I know,
That one hundred days we've been in school...
And there are lots more days to go!

Lots more days for having fun,
In our very own classroom.
And if I learn to count some more
I'll be at a MILLION soon!
