

Sock Puppets

You will need:

- A clean sock
- Buttons
- Yarn
- Yarn needle
- Felt pieces or material scraps
- Fabric pens or markers
- Odds and ends

Steps:

1. Put your hand in the sock and decide where the mouth and head are going to be.
2. Make the following parts:
3. Mouth: Make a mouth or lips out of felt or draw with markers
4. Make button or felt eyes, glue or sew on.
5. Draw or make a fabric nose.
6. Make ears (hint: Cut ovals and sew one end to the sock on each side)
7. Add yarn hair or fabric hair (fabric hair can be made by cutting a rectangle of fabric and cutting 1/4 inch strips to one inch of the edge)

Babysitters: You can cut the parts ahead of time to make it easier for the kids depending on their ages.

Always be careful when using scissors or needles.
