

## THREE SIDED DIORAMA

You will need:

- Three patterns of the *Three-Sided Diorama*.
- Scissors
- Glue
- tag board or cardboard

Directions:

1. Cut out the three patterns.
2. Cut along the line that says "cut".
3. Fold along fold lines.
4. Put the parts together by gluing the back of "B" to the front of "A".

HINT: If you want to color a background, do this before you do step 4.

After all three parts are made...

1. Glue backs together. The base should be a circle.
2. Trace the base (circle) on a piece of cardboard or sturdy paper.
3. Cut out the circle.
4. Glue the three sections to the base.

Possible Uses:

- book reports (one section for characters, one for setting, and one for an important scene)
- autobiographies
- biographies
- environments
- holiday decorations (these make great centerpieces)
